Hogwarts Legacy Field Guide Pages Checklist

Published: November 20, 2026 | Index ID: #-

Your Ultimate Hogwarts Legacy Field Guide Pages Checklist

Exploring the sprawling grounds of Hogwarts Castle and the vast Highlands beyond is one of the most rewarding experiences in *Hogwarts Legacy*. However, for the dedicated collector, the true prize lies in tracking down every single **Field Guide Page**. These glowing, magical slips of parchment do more than just expand your collection; they are essential for leveling up your character, unlocking new talents, and 100% completing the game. With over a hundred pages scattered across the world, finding them all without a guide can feel overwhelming. This comprehensive **Hogwarts Legacy Field Guide Pages Checklist**will break down exactly where to look, how to collect them, and what you get for your efforts.

Why You Need a Field Guide Pages Checklist

Before diving into the locations, it helps to understand why these pages are so critical to your journey. They are the primary source of **Field Guide Experience**, which is the key to reaching higher levels and unlocking powerful upgrades. Each page you find contributes directly to your overall progression, making this checklist not just a tool for completionists, but a necessity for anyone wanting to maximize their character's potential.

Earning Experience and Unlocking Talents

Every time you collect a Field Guide Page, you earn a chunk of experience points. As your bar fills up, you will level up, earning **Talent Points**. These points are used to unlock new spells, improve your combat abilities, and enhance your stealth and utility skills. Without a steady supply of pages, leveling up can become a slow grind.

Completing the Collection to 100%

For those aiming to achieve the coveted 100% completion mark, the Field Guide Pages are non-negotiable. They are tracked meticulously in your collections menu, and any missing pages will leave a frustrating gap. Using an organized checklist is the best way to ensure you don't miss a single one.

Understanding the Different Types of Field Guide Pages

Not all Field Guide Pages are found in the same way. Recognizing the different types will save you hours of aimless searching. This **Hogwarts Legacy Field Guide Pages Checklist** categorizes them for easier tracking.

Accio Pages

These are among the most common types you will encounter. Look for a floating, glowing page that is often just out of reach. To collect it, you must cast **Accio**to pull it toward you. These are frequently found near ceilings, in high towers, or behind objects.

Lumos Pages

These pages are hidden in plain sight but require a specific spell to reveal them. Look for a small, floating moth-like creature. Cast **Lumos**to attract the moth, then lead it to a nearby frame, plaque, or picture. The page will then appear. These often require a bit of puzzle-solving and careful movement.

Revelio Pages

These are the easiest to trigger but can be the easiest to miss. As you explore an area, you will notice the spell **Revelio**highlighting a page in blue. Simply cast Revelio to instantly collect it. The key is to use Revelio constantly, especially in hallways, staircases, and rooms with lots of clutter.

Flying Pages

A more elusive variant, these pages will actively flee from you. When you spot one, you need to quickly chase it down and cast **Accio**before it disappears. These are often found in outdoor courtyards or large indoor spaces like the Great Hall or the library.

Confringo and Incendio Pages

Some pages are hidden behind cobwebs, braziers, or other obstacles that require fire to clear. Using **Confringo** or **Incendio**will burn away the blocking element, revealing the page underneath. Keep an eye out for thick, glowing cobwebs in dark corners.

The Hogwarts Castle Field Guide Pages Checklist

The castle itself is a labyrinth of secrets, housing the largest concentration of Field Guide Pages. This section of the **Hogwarts Legacy Field Guide Pages Checklist** is broken down by major areas.

The Great Hall and Central Hub

Start your collection in the heart of the school. The Great Hall contains multiple pages, including one above the house tables that requires Accio, and another near the enchanted ceiling that triggers with Revelio. The main staircase and the Grand Staircase towers are dense with pages, often requiring you to look up and check the undersides of staircases.

- Great Hall: Use Revelio near the staff table. Look for a flying page near the front doors.
- Grand Staircase: Check the moving staircases for pages that appear only when they stop. Use Revelio on every landing.
- Central Hall: There is an Accio page high above the central fountain. A Lumos moth is near the fireplace.

The Library and Restricted Section

The library is packed with knowledge and pages. Use Revelio near the main reading desks and bookshelves. The Restricted Section contains a particularly tricky flying page that zips around the central aisle. Be patient and time your Accio cast carefully.

- Main Library: Look for a Lumos moth near the card catalog. Revelio reveals a page on a high shelf.
- Restricted Section: The flying page is near the back. Use Arresto Momentum if you have it to slow it down.

The Astronomy Wing

This area, including the Astronomy Tower and the Divination Classroom, offers several pages with a view. The tower itself has a page on the balcony that requires Accio. The Divination area often has pages hidden under teacups or behind crystal balls.

- Astronomy Tower: Revelio near the telescope. Accio the page floating outside the window.
- Divination Classroom: Use Revelio near the professor's desk. Check the shelves for a page behind a teacup.

The Dungeons and Slytherin Common Room

Down in the darker parts of the castle, pages can be harder to spot. The Slytherin common room has several, but you must be a Slytherin to enter. Near the Potions classroom, look for pages hidden behind large cauldrons or on

top of cabinets.

- Potions Classroom: Revelio near the storage shelves. Accio a page above the door.
- Slytherin Common Room: Check around the windows looking into the Black Lake. Revelio near the fireplace.

Hogsmeade and the Highlands Field Guide Pages Checklist

Beyond the castle walls, the village of Hogsmeade and the surrounding regions hold their own secrets. This part of the **Hogwarts Legacy Field Guide Pages Checklist** focuses on outdoor and village locations.

Hogsmeade Village

The village is a dense collection of shops and rooftops. Many pages here require you to climb and explore vertical spaces. Use Revelio as you walk down the main street. The area near the Three Broomsticks has a flying page that loops around the building.

- Hogsmeade Station: Check the bridge and the platform. Revelio near the train.
- Honeydukes: Look for a page near the display window. Use Accio to pull it down from a high shelf inside.
- Zonko's: Revelio near the counter. Check the back room for a Lumos moth.

The Forbidden Forest

The forest is dangerous but rewarding. Pages here are often near ancient ruins, spider dens, or the edges of magical creatures' habitats. Be prepared for combat, as many pages are guarded by hostile enemies.

- Forest Entrances: Check the stone arches near the start of the forest path.
- Ancient Ruins: Use Revelio near collapsed pillars and broken walls.
- Poacher Camps: Pages are often inside tents or on tables. Loot them carefully.

The Coastal and Southern Regions

Places like the coastal cliffs near Poidsear Coast and the southern bog areas contain pages that are tied to geography. Look for pages near lighthouses, shipwrecks, and coastal caves. Flying pages here can be tricky due to the open space.

- Poidsear Coast: Revelio near the lighthouse. Accio a page fluttering above the water.
- Manor Cape: Check the ruins of old castles and towers. Pages are often on the top floors.
- Clagmar Coast: Look for pages near the large rock formations. Use Revelio while flying on your broom.

Tips for Efficiently Using This Checklist

Having a list is one thing, but using it effectively is another. Here are some expert tips to streamline your collection process using this **Hogwarts Legacy Field Guide Pages Checklist**.

Use Revelio Constantly

This cannot be overstated. Make it a habit to cast Revelio every few seconds, especially when entering a new room or area. The spell has a wide radius and highlights pages in a bright blue glow, making them impossible to miss.

Listen for the Chime

When a Field Guide Page is nearby, you will hear a distinct, soft chime. If you hear this sound but cannot see the page, stop and scan the area carefully with Revelio. The page might be behind a wall, under a floor, or above a ceiling.

Check Your Map Progress

Open your map and zoom into specific regions and areas. Each section of the castle and the world shows a collection counter. This tells you exactly how many pages you have found in that zone versus how many exist. Use this to pinpoint which areas you still need to thoroughly search.

Don't Forget the Inner Walls

Some of the easiest pages to miss are the **Lumos**moth pages. The moth is often a tiny, barely visible speck of light. Take your time in each room and look for any small glowing object that moves. Lead it patiently to its frame, and the page is yours.

What Happens When You Collect Every Page?

Completing the entire **Hogwarts Legacy Field Guide Pages Checklist** is a monumental task, but the rewards are worth it. Aside from the massive experience boost that will likely push you to level 40, you unlock the final collections tab and earn the **Collector's Edition** trophy or achievement.

More importantly, you will have seen every corner of the map. You will have explored hidden attics, secret passageways, and remote ruins that most players never visit. The journey itself becomes the reward, providing a deep appreciation for the world the developers created.

Common Mistakes to Avoid

Even with the best checklist, players often make a few common errors. Here is what to watch out for.

Thinking You Can Get All Pages Post-Game: You can get almost all of them, but a few require spells you learn during the main story. Make sure you have completed the main questline before you finalize your collection. Additionally, some pages are tied to specific seasons, so you may need to advance the story to access certain areas.

Ignoring the Vivarium Pages: Your Room of Requirement and the Vivariums contain several pages. Check the beast habitat areas carefully. Use Revelio near the edges of the ponds and inside the shelters you build for your creatures.

Forgetting the Lower and Upper Levels: The castle map is divided into multiple levels (Lower, Main, Upper, and Grand Staircase). Players often forget to check the lower levels, such as the dungeon areas near the Map Chamber, or the very top floors of the towers. Use your map to toggle between levels and ensure you have covered each one.

Final Thoughts on Your Hunting Journey

Collecting every Field Guide Page is one of the most satisfying achievements in *Hogwarts Legacy*. It turns a simple playthrough into a true treasure hunt across every inch of the magical world. With this **Hogwarts Legacy Field Guide Pages Checklist**in hand, you are equipped to find every last page, earn every talent point, and unlock the full completion of your collections. Keep your wand ready, your spells primed, and your eyes open. The magic is
