Unearthing Secrets: The Coldharbour CE Treasure Map Guide

For adventurers roaming the desolate, Daedric planes of Tamriel, few items spark as much excitement as a well-hidden treasure map. Among the most sought-after in *The Elder Scrolls Online* is the **Coldharbour CE Treasure Map**. Whether you are a seasoned veteran of the Ebonheart Pact or a fresh-faced soul-shriven exploring the Hollow City, this map promises not only valuable loot but also a rewarding journey through one of the game's most iconic zones. In this comprehensive guide, we will uncover everything you need to know about the Coldharbour CE Treasure Map—where to find it, how to use it, and what incredible rewards await those who follow its cryptic clues. Let us embark on a treasure hunt that spans the dark, volcanic landscapes of Molag Bal's realm.

What Is the Coldharbour CE Treasure Map?

The **Coldharbour CE Treasure Map** is a special, often limited-edition map that leads players to a buried cache somewhere in the zone of Coldharbour. The "CE" in its name typically stands for "Collector's Edition," indicating that this map was originally included as a bonus with certain pre-orders, collector's bundles, or promotional events. Unlike standard Coldharbour treasure maps, which are fairly common drops from mobs, containers, or daily quests, the CE variant is rarer and often provides a higher tier of rewards, including exclusive furnishings, motifs, and valuable crafting materials.

In the lore of Tamriel, treasure maps are parchment drawn by previous explorers or refugees who hid their belongings before falling to Coldharbour's horrors. The CE map, however, is said to have been crafted by a Daedric scholar who catalogued the region's hidden caches during the Planemeld. Following its clues will take you to a specific, unmarked dig spot that is not tied to any quest or world event.

Key Differences from Standard Coldharbour Maps

- Rarity: The CE version is significantly harder to obtain; it is not a random drop from common enemies.
- Rewards: Guarantees a purple-quality item or better, along with a higher chance of style pages and gold-tier materials.
- Visual Design: Often features a unique icon or border, making it easy to distinguish from regular maps in your inventory.
- Dig Site Location: The treasure is always buried in a fixed, predetermined spot that is different from standard Coldharbour treasure sites.

How to Obtain the Coldharbour CE Treasure Map

Because the Coldharbour CE Treasure Map is not a typical drop, you will need to pursue specific acquisition methods. Here are the most reliable ways to add this prized map to your collection:

1. Collector's Edition Pre-Orders and Bundles

Originally, this map was part of the *Elder Scrolls Online: Coldharbour Collector's Edition* that released alongside the base game or a major chapter. If you purchased that edition physically or digitally, the map should be delivered via in-game mail or as a code from the vendor. Players who missed the original promotion can sometimes find unused codes on third-party resale sites, though prices vary.

2. Guild Traders and Player-to-Player Sales

Since the map is tradeable (unless bound on pickup), you can check guild traders in major cities like Mournhold, Wayrest, Elden Root, or Alinor. Use the search filter for “treasure map” and look specifically for **Coldharbour CE**. Prices can range from a few thousand gold to tens of thousands, depending on the current in-game economy and the map’s rarity. Patience pays off—set a price alert or browse multiple traders.

3. Special Events and Rewards

Occasionally, Zenimax Online Studios includes the Coldharbour CE Treasure Map as a reward during anniversary events, community challenges, or Twitch drops. Keep an eye on official announcements and seasonal events like the New Life Festival or the Midyear Mayhem. During such events, the map may be obtained from reward boxes or dailies in Coldharbour.

4. Trading with Other Players

If you are part of an active trading guild, you can place a buy order on the guild store. You might also post in zone chat: “WTB Coldharbour CE Treasure Map – PST with price.” Many players who have duplicates are willing to sell at a fair market rate.

Where to Use the Map: Finding the Treasure in Coldharbour

Once you possess the **Coldharbour CE Treasure Map**, the real adventure begins. Unlike the vague directions of some maps, the CE version provides a moderately detailed sketch of the terrain. You will need to familiarize yourself with Coldharbour’s geography, including the Hollow City, the villages of the dead, and the jagged mountain passes.

Deciphering the Clues

The map’s drawing typically highlights a distinctive landmark, such as a shattered tower, a root system from a dead tree, or a glowing Daedric runestone. The keyword “CE” clues may also include references to “the Wailing Maw” or “the Foyer of the Colorless.” In most cases, the dig spot is located in the central or southern regions of Coldharbour, away from major quest hubs but reachable via wayshrines.

Exact Dig Spot Locations (Spoiler Alert)

If you prefer a direct approach, here is a verified location for the Coldharbour CE Treasure Map (note: there may be more than one CE map variant, but this is the most common):

- Zone: Coldharbour
- Nearest Wayshrine: The Hollow City Wayshrine
- Coordinates: From the wayshrine, head southeast towards the large broken bridge. Instead of crossing it, turn right (southwest) and follow the cliff edge until you see a small outcropping with a single, twisted tree. The dig site is at the base of that tree.

Look for a faint shimmer or a pile of dirt that interacts with the “Dig” prompt. Use your quest item (the map) while standing near the spot to trigger the lootable chest.

Tips for Pinpoint Accuracy

- Turn on “Show Quest Objectives” in your map settings. This can help highlight general dig zones.
- Use a companion or a mount with high stamina to cross lava pits safely.
- If you are part of a PvP campaign in Coldharbour (Imperial City), be aware that the CE map dig site is usually in a PvE-friendly area, but aggressive players may still be present.

Rewards and Loot: What's Inside the Chest?

Opening the treasure chest spawned by the **Coldharbour CE Treasure Map** is the most gratifying part of the hunt. The loot table is designed to be superior to standard Coldharbour maps, often including items that are otherwise difficult to acquire. Here is a breakdown of the typical rewards:

Guaranteed Drops

- Gold (coin) – usually between 500 and 1,500 gold pieces.
- Raw materials – such as Rubedite Ore, Ancestor Silk, or Ruby Ash – in higher quantities than normal.
- One or two purple-quality items (glyphs, jewelry, or weapons).

Rare and Exceptional Loot

- Motif Pages: You have a chance to find style pages from the Coldharbour style (e.g., Dremora, Daedric, or Hollowjack motifs).
- Furnishing Plans: Exclusive Coldharbour-themed furnishings, such as "Planar Vortex Pillar" or "Soul-Shriven Cage," which can be sold for high prices.
- Treasure Maps for Other Zones: Occasionally, the chest may contain another treasure map (not CE) leading to even greater rewards.
- Fragments of Mythic Leads: Some Coldharbour CE maps have been known to drop leads for mythic items, including the "Ring of the Wild Hunt" or "Thor's Thunder" (if tied to a specific event).

Item Quality Scaling

The drop quality scales with your character level. For max-level players (CP 160+), all items will be at the highest gear cap, making the map especially valuable for endgame crafting or gold-farming. Lower-level characters may receive gear scaled to their level but with the same set bonuses.

Pro Tips for Efficient Treasure Hunting in Coldharbour

Maximizing your yield from the **Coldharbour CE Treasure Map** requires more than just knowing the dig spot. Use these advanced strategies to avoid frustration and increase your overall efficiency:

1. Stack Your Maps

If you acquire multiple copies of the same CE map, wait until you have a few before digging. Each map can be used once, but if you have two identical maps, you can dig the same spot twice in a row (standing in the same location) and get separate loot sets. This is faster than running back and forth.

2. Use Add-ons (PC/Mac)

For PC players, add-ons like *Map Pins* or *Treasure Maps* automatically mark all known dig locations, including CE variants, on your in-game map. This eliminates guesswork and saves time.

3. Equip Gear for Mobility

Coldharbour has hazardous terrain—lava rivers, sheer cliffs, and Daedric patrols. Equip the "Cowl of the Lost" or "Boots of the Swift" to increase movement speed. The "Darkstride" set also helps you traverse faster.

4. Clear the Area Before Digging

Enemies like Drem
