Made To Crave By Lysa Terkeurst

Published: November 20, 2026 | Index ID: #-

Introduction: Understanding the Deep Hunger Within

In a world saturated with diet plans, fitness challenges, and quick-fix weight loss solutions, a deeper struggle often goes unaddressed. It is the struggle of the heart. Many of us have experienced the cycle of starting a new diet with fierce determination, only to find ourselves defeated by the same cravings that led us to seek change in the first place. It is within this very tension that **Made To Crave By Lysa Terkeurst** steps in, offering not another set of rigid rules, but a profound spiritual and emotional framework for understanding our desires. This book has resonated with millions because it reframes the conversation. It suggests that our intense cravings for food are not merely physical weaknesses, but often misdirected spiritual longings. Lysa Terkeurst, a popular Christian author and speaker, wrote this book from a place of personal struggle, making it both relatable and deeply practical. Instead of a typical self-help manual, **Made To Crave By Lysa Terkeurst** invites readers on a journey to discover that the very desire we pour into food is a desire that was originally intended for God. The book is not about shame or deprivation; it is about liberation through understanding our true needs. By exploring the intersection of faith, food, and emotional health, Terkeurst provides a sustainable path that starts not with the stomach, but with the soul. For anyone who has ever felt controlled by what they eat, this book offers a compassionate voice and a proven strategy for lasting change.

The core premise of **Made To Crave By Lysa Terkeurst** is revolutionary in the self-help genre. It acknowledges that we are created with a deep, innate capacity to crave. This capacity is not a flaw; it is a feature of our humanity. The problem arises when we direct these powerful cravings toward temporary, earthly solutions like food, which can never truly satisfy the soul. Lysa argues that God hardwired us to crave because He wants us to crave Him. When we attempt to fill that God-sized void with food, we are left feeling emptier than before, leading to a cycle of overeating and guilt. The book walks readers through the process of untangling these desires, learning to distinguish between physical hunger and emotional or spiritual hunger. It provides practical tools for resisting the urge to turn to food for comfort, stress relief, or reward. Through her own transparent story of struggle and failure, Terkeurst builds a bridge of empathy with her readers. She does not present herself as someone who has perfect discipline, but as a fellow traveler who has found a better way. This authenticity is what makes **Made To Crave By Lysa Terkeurst** so compelling. It speaks to the woman who has tried every diet, who has prayed for self-control, and who feels like she is constantly starting over. It offers hope that change is possible, not through willpower alone, but through a redirected heart.

The Foundation: Why Willpower Alone Is Never Enough

One of the most liberating truths in **Made To Crave By Lysa Terkeurst** is the complete dismantling of the idea that success is purely a matter of willpower. We have all been told that if we just wanted it badly enough, we could resist the cookie. Lysa challenges this by pointing out that relying on sheer willpower is a setup for failure. Willpower is a finite resource. It gets depleted by stress, fatigue, and the demands of daily life. When we rely solely on our own strength to overcome powerful cravings, we are essentially fighting a spiritual battle with earthly weapons. The book explains that God does not intend for us to live in constant self-denial. Instead, He wants to provide us with a supernatural strength that goes beyond our own limited capacity. This is a critical shift in perspective. It moves the struggle from the physical realm to the spiritual realm. Instead of saying, "I need to eat less," the prayer becomes,

"God, help me to crave You more than I crave this food." This subtle but profound change allows the reader to stop battling shame and start embracing grace. **Made To Crave By Lysa Terkeurst** provides scriptural principles that empower the reader to see that they have access to a power greater than their own willpower.

This chapter of understanding is essential because it addresses the root cause of the battle. Many diet books focus on what to eat and when to eat. They provide meal plans and calorie counts. This book focuses on why we eat. It asks the difficult questions: What are we running from? What are we trying to soothe? What void are we trying to fill? By answering these questions, the reader begins to see their cravings as signals. A sudden urge for sugar might not be about low blood sugar at all; it might be about a stressful day at work or a feeling of loneliness. **Made To Crave By Lysa Terkeurst** teaches readers how to pause and interpret these signals. It gives them permission to feel the craving without immediately acting on it. This practice of pausing creates a space where a choice can be made. In that space, a woman can choose to turn to God in prayer instead of turning to the pantry. Over time, this creates new neural pathways and new habits. The book is built on the understanding that lasting change takes time, patience, and a lot of grace. It is not about perfection; it is about progression. Each small victory builds momentum, and each failure is a learning opportunity, not a reason to quit. This gentle, grace-filled approach is what sets this book apart from other resources on healthy living.

Key Principles and Practical Strategies from the Book

Identifying Your Personal Triggers

A major pillar of **Made To Crave By Lysa Terkeurst** is the concept of self-awareness. Lysa encourages readers to become detectives of their own lives. She provides a framework for identifying the specific triggers that lead to overeating. These triggers can be emotional (stress, boredom, sadness, joy), environmental (the break room at work, a party, a holiday), or social (pressure to eat certain foods). By keeping a simple journal or just being more mindful, readers can start to see patterns. For example, a woman might realize that she consistently heads for the kitchen after putting her kids to bed. This is not about hunger; it is about reward and relaxation after a long day of service. Once the trigger is identified, the strategy can be developed. The book suggests creating a plan ahead of time. If the trigger is post-bedtime boredom, the plan might be to have a cup of herbal tea or read a chapter of a book instead of raiding the fridge. This proactive approach replaces reaction with intention. The power of **Made To Crave By Lysa Terkeurst** lies in these practical, actionable steps that are grounded in spiritual truth. It is not vague advice; it is a clear, step-by-step guide to changing lifelong habits.

Redefining Self-Control as a Spiritual Discipline

In our modern culture, self-control is often seen as a restrictive and even negative trait. It is associated with the word "no" and feelings of deprivation. Lysa Terkeurst reframes this entirely. In her book, she presents self-control not as a punishment, but as a fruit of the Spirit. It is a gift from God that allows us to live in freedom. When we practice self-control, we are not denying ourselves something good; we are choosing something better. The Bible is filled with verses about discipline and self-control, and **Made To Crave By Lysa Terkeurst** weaves these scriptures into its core message. The author encourages readers to see their daily choices about food as spiritual acts of worship. Choosing a healthy meal instead of a processed one becomes a way of honoring God with your body. Choosing to stop eating when you are full becomes an act of gratitude for what He has provided. This reframing changes the entire emotional experience of eating. It takes the guilt out of indulgences and the pride out of discipline. Both become part of a normal, grace-filled journey. The book offers specific prayers and scriptures to meditate on when a craving hits. It provides a spiritual toolkit for a daily battle. This integration of practical action and deep faith is why **Made To Crave By Lysa Terkeurst** has been so incredibly effective for countless readers.

The Role of the "Made to Crave" Devotional and Online Community

Beyond the main book, **Made To Crave By Lysa Terkeurst** has spawned a full ecosystem of support. There is a companion devotional book that provides daily readings to keep the principles fresh in the reader's mind. This is crucial because the journey to lasting change is a long one. One book can provide a spark, but consistent daily input is needed to keep the fire burning. The devotional breaks down the core concepts into manageable, daily doses of wisdom. Furthermore, there is a vibrant online community, often referred to as the "Made to Crave" community, where women from around the world support each other, share their struggles, and celebrate their victories. This community aspect is vital. It provides accountability and encouragement. Knowing that thousands of other women are praying the same prayers and fighting the same battles removes the isolation that often accompanies weight struggles. This sense of shared mission is incredibly powerful. The resources that have grown out of **Made To Crave By Lysa Terkeurst** demonstrate that the author understands the need for ongoing support. She has built a movement, not just a book. For anyone serious about making a change, engaging with these secondary resources is highly recommended. They transform the book from a one-time read into a sustainable lifestyle.

How This Book Applies to Men and Women Alike

While **Made To Crave By Lysa Terkeurst** is written from a woman's perspective and the publisher's primary audience is women, the principles it contains are deeply universal. The struggle with cravings, emotional eating, and the desire to find solace in food is not limited by gender. Many men have also found immense value in this book. The core spiritual truth that we are wired to crave God and that we often misdirect those cravings applies to every human being. Men face their own unique pressures and triggers. They also deal with stress, disappointment, and unmet emotional needs. The culture often tells men not to express these feelings, and food can become a coping mechanism for them as well. The practical advice in the book about pausing, praying, and identifying triggers is just as effective for men. The language is accessible and the concepts are straightforward. While some of the personal anecdotes are specific to a woman's life and family, the underlying spiritual and psychological insights are universal. Anyone who wants to break free from the cycle of overeating and find a deeper sense of peace and purpose will find treasure in these pages. The message of grace, redemption, and redirected desire is for everyone. It is a testament to the power of the book that it has been embraced by a broader audience than the one it was originally written for.

The book also addresses a common misconception that spiritual growth and physical health are separate issues. **Made To Crave By Lysa Terkeurst** masterfully demonstrates that they are deeply intertwined. How we treat our bodies is a reflection of our relationship with God. Gluttony is addressed in the Bible alongside other sins, but it is often overlooked in modern Christian circles. Lysa courageously brings this topic into the light. She writes with humility, acknowledging her own struggles with this very issue. She does not point fingers; she extends a hand. This makes the book accessible to anyone who has felt shame about their eating habits. It creates a safe space for honest reflection. The book encourages readers to move from a place of condemnation to a place of conviction. Condemnation says, "You are bad for eating that." Conviction says, "I love you too much to let you stay in this unhealthy place." That is the heart of God, and that is the heart of this book. It is an invitation to step into a life of freedom, health, and a deeper, more satisfying relationship with the Creator who made us to crave Him. It is a journey of a thousand small, faithful steps, and **Made To Crave By Lysa Terkeurst** is the perfect guide for that journey.

Conclusion: A Journey of Grace and Freedom

In conclusion, **Made To Crave By Lysa Terkeurst** is far more than a book about dieting. It is a transformative guide to understanding the deepest desires of the human heart. It meets readers in their place of struggle and offers them a ladder out of the pit. The book dismantles the myths of willpower and introduces the reality of grace-filled discipline. It provides practical tools for identifying triggers and developing healthier responses. Most importantly, it redirects our focus from the fleeting satisfaction of food to the eternal satisfaction of a relationship with God. Whether you have struggled with your weight for decades or you are new to the battle, the message of this book brings hope. It makes a powerful promise: that you can break free from the power of food. You can learn to eat with intention and gratitude. You can find the freedom to live not controlled by cravings, but empowered by a deeper craving for God. This is the lasting legacy of **Made To Crave By Lysa Terkeurst**. It is a journey of grace, honesty, and miraculous transformation. It invites you to stop fighting the battle in your
